Frederic Cary referred to the fact that as a member of the charter commission of Norwich, which in his opinion was the best ever made for the city of Norwich, and that after hearings and conferences and newspaper discussion relative to the matter that the commission had in hand, no one could propose any improvement in the city court. He said that the members of the city that the city court alone would not be affected under the changes recommended in the new charter.

the men's league's activities should center about them.

Following Mr. Board, Rev. Mr. Worcester spoke a few words as to men's work in the making of men and called on F. W. Cary for a few remarks.

Mr. Cary's idea was that if an institution is exempt from taxation it should return an equivalent to the community. Mr. Cary thought that a men's league would be a good thing and would yield a harvest of benefits if properly organized and run.

At this point, Mr. Bishop, who was in motion to express the thanks of the gathering to the ladies for the excellent supper provided. The motion was seconded and carried and Rev. Mr. Worcester appointed Messrs. Bishop, Andrews and Allen to carry out the motion, which they did.

NORWICH TOWN.
Storm of '93 Recalled—Joseph Bill Active at 87—Dr. Warren Addresses Sunday School—Woodchuck in Advance of Season.

The storm of Feb. 20 recalls to a local resident the storm of Feb. 20, 1893, when she was living on Walpole Hill. It was a genuine blizzard of snow and wind and was the tenth anniversary of their wedding. The driver of a furniture team from Norwich bringing presents nearly perished on the way. Twenty-five neighbors managed to reach there, but the party was held on two evenings—the second evening with an attendance of eighty.

They had a jolly time, coming in straw sleds and on sleds over the drifts.

Dr. Lowell, interestingly came to Norwich Monday on a business trip. He spent Monday night with Charles Hill of the Canterbury turnpike. Mr. Hill is 87 years young, walking, the hard, hilly road over a mile from the trolley to Mr. Hill's in Monday's storm with the ease and vigor of a young man. Tuesday morning in his walk down the hill he called on an old friend who is in her eightieth year and whose life is full of health and activity.

Benevolent Path Makers.
Monday Arthur Bennett was out with his snow plow on Vernon Hill and town to the trolley. E. H. Bushnell made the path around Bean Hill, Huntington avenue and down West street, meeting the path which Burrill Lathrop had made with his snow plow. Mr. Lathrop also went through the village, over the river, the New London turnpike, around town and through Bliss place. All of these paths are much appreciated.

Woodchuck Caught in Trap.
Observing the tracks of a small animal in the snow, a local resident set a trap. E. H. Bushnell, who was surprised found a woodchuck in it. Never in his life before had he heard of a woodchuck being seen at this time of year. The woodchuck passes the winter in a state of torpor in a deep hole in the ground, the opening of which is closed by a heap of dried grass.

A Reasonable Plea
For the Stomach
Power, Why Not Help the Stomach
Do Its Work—Especially When
It Costs Nothing To Try?

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach. Scientific analysis shows that digestion requires pepsin, hydrochloric acid, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and are placed at work in the weak stomach, small intestine, supply what the organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical and careful tests at home and abroad and are found to contain nothing but natural digestive agents.

Chemical Laboratory, Telegraphic address, "Difindno," London. Telephone No. 11028, Central, 20 Colman St., Frenchchurch St., London, 9th April, 1905.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), and have found that they contain exactly what is needed for the digestion of food. I am of opinion that they are admirably adapted for the purpose for which they are intended.

(Signed)
John R. Brooke, F. L. C. F. C. S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dizziness and kindred disorders originating from improper digestion and assimilation of foods, because they are reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy. One grain of these tablets 3,000 strong enough (by test) to digest 3,000 grains of steamed vegetables and meat foods. Stuart's Dyspepsia Tablets will direct your food for you when your stomach can't.

Ask your druggist for a fifty cent package or send us direct for a free trial sample package and you will be changed by the results. Write to Stuart's Dyspepsia Tablets, 150 State Bldg., Marshall, Mich.
